About me

As mentioned above, I am a student in computer science at the Université Catholique Louvain-la-Neuve finishing my 1st year of Master's degree. I am looking for experience in the IT field even if I have already worked in the catering industry. I am energetic and curious by nature, loving group work even if I can be shy, but it disappears relatively quickly when I meet the other members of the team.

Skills

Design Pattern*4 UNIX System*4
JS*2.5 NoSQL*2 NodeJS*2

(*)[The skill scale is from 0 (Fundamental Awareness) to 6 (Expert).]

Work expectations

Learning and experimenting with other computer scientists is one of the expectations I have of the world of work. I am at a point in my life where I need to learn more about the professional world in order to be ready for the future.

Education

Since 2018	Master student in Computer Science <i>Opt. Software Engineering & Networking</i>	UCLouvain
2015-2018	Bachelor in Computer Science	UCLouvain
2012-2015	High School 5th and 6th years	Carlsbourg
2009-2012	High School From 1st to 5th year	Habay-La-Neuve

Language

French		Mother tongue
English	Language travel - LAL Language Centres : - Malta - England	Upper-Intermediate/B2

Experience in IT

/
